PROFESSIONAL SUMMARY

Analytical and detail-oriented professional with experience in data analysis, resource planning, and financial administration. Skilled in logistics coordination, cost tracking, and reporting, with a strong interest in data-driven decision-making and cloud technologies. Proficient in tools such as Excel, GIS, SQL, and Python to support operational insights and process optimization.
Certified AWS Cloud Practitioner with training from the AWS re/Start Cloud Computing Program, gaining hands-on experience in cloud fundamentals, Linux, networking, security, and AWS services.

WORK EXPERIENCE

Planning Assistant
County Government of Nyandarua | Jan 2024 – Present

- Analyzed land use data to support resource allocation and infrastructure planning.
- Developed reports on spatial distribution and planning trends.
- Assisted in optimizing workflows and improving data management processes.
- Engaged stakeholders to support policy recommendations based on data insights.

Physical Planner
Geosync Consulting (K) Ltd | Feb 2021 – Dec 2023

- Conducted data-driven assessments for land planning and compliance.
- Developed GIS-based maps to optimize resource distribution and land use decisions.
- Reviewed applications for land valuation, change of user, and approvals.
- Managed project documentation and supported process improvement initiatives.

Loan Officer
ASA Kenya | Aug 2018 – Dec 2018

- Processed and evaluated loan applications, ensuring accuracy in financial data.
- Conducted field assessments and borrower analysis to mitigate risks.
- Tracked loan disbursements, repayments, and financial records.
- Provided training on basic financial management and loan utilization.

Data Enumerator
Heifer International | June 2017

- Collected and validated field data to support research and project evaluations.
- Assisted in logistics coordination and reporting for data collection teams.
- Ensured accurate data entry and helped analyze key trends in project outcomes.

EDUCATION & TRAINING

ALX Data Science Program – Ongoing

- Training in Python, SQL, data analysis, and data visualization.
- Applied analytical techniques to interpret data and generate insights.

AWS re/Start Cloud Computing Program

- Intensive training in cloud computing, Linux, networking, security, and AWS services.
- Hands-on labs covering cloud infrastructure, troubleshooting, and cloud operations.

AWS Certified Cloud Practitioner
Amazon Web Services

- Demonstrates foundational knowledge of AWS Cloud concepts, services, pricing, security, and architecture.

Power Learn Project Africa | Feb 2025 – June 2025
Software Development
Jomo Kenyatta University of Agriculture and Technology | 2012 – 2015
Bachelor of Science in Land Resource Planning & Management
Strathmore University | Apr 2011 – Sep 2011
Financial & Business Accounting

- Management Accounting
- Accounting in Business

Laikipia University | 2011
Certificate in Computer Applications

SKILLS & COMPETENCIES
Data & Analytics

- Data Analysis
- Data Visualization
- SQL & Python basics
- KPI tracking and operational insights

Cloud & Technical Skills

- AWS Cloud fundamentals
- Linux basics
- Cloud security and networking concepts
- Database management

Business & Operational Skills

- Logistics coordination
- Resource allocation
- Budgeting and cost monitoring
- Process improvement

Tools

- MS Excel
- GIS applications
- AutoCAD
- Database tools

Soft Skills

- Problem solving
- Analytical thinking
- Team collaboration
- Adaptability
